OBJECTIVE

Full stack web developer with 2 years of experience in creating secure, responsive, and efficient web applications. Skilled in both front-end and back-end development, with expertise in HTML5, CSS3, Bootstrap, JavaScript, jQuery, PHP, AJAX, MySQL, JSON, and RESTful APIs. Proven ability to enhance website performance, implement security measures, and develop user-focused web applications. Holds a strong foundation in Information Technology with a Bachelor's and Master's in Commerce.

Technical Skills

- **Front-End Technologies:** HTML5, CSS3, Bootstrap 4 & 5, JavaScript, jQuery
- **Back-End Technologies:** PHP, AJAX, MySQL, JSON
- **API Integration:** RESTful APIs
- **Database Management:** MySQL database design, optimization, and secure data handling
- **Security Practices:** CSRF tokens, prepared statements, SSL/TLS encryption, error logging
- **Other Skills:** Responsive design, cross-browser compatibility, client-side/server-side validation, performance optimization

Experience

E-commerce:

Bisum store, Cinderella Bags, LuxeHorizon store

- **User Panel Development:** Designed and implemented responsive user panel features for seamless shopping experiences, including account management, order tracking, and personalized product recommendations. Enhanced user engagement by integrating secure login, OTP verification, and two-factor authentication.
- **Admin Panel Optimization:** Built efficient admin panels to streamline product management, inventory tracking, and order processing workflows. Developed customized dashboards to track key performance indicators (KPIs) and sales analytics, allowing for data-driven decision-making.
- **E-commerce Platform Security:** Ensured secure transactions through encryption, CSRF tokens, prepared statements, and rate limiting. Created features to monitor and log activity for real-time threat detection.
- **Cross-functional Collaboration:** Worked with front-end and back-end teams to integrate APIs, design user-friendly interfaces, and implement testing protocols, resulting in a 30% increase in customer satisfaction and a 20% improvement in sales conversions.

Network Marketing Websites (MlM):

Globalbiz International, Gold earth, Next biz wave

- **Developed and Maintained Network Marketing Websites:** Built secure, scalable websites for multi-level marketing (MLM) platforms, ensuring a user-friendly interface and seamless functionality for both customers and distributors.
- **User Panel Development:** Created customized user panels that empower users to manage accounts, track earnings, view sales, and manage network growth, enhancing user experience and engagement.
- **Admin Panel Development:** Designed and implemented admin panels to streamline management tasks, including tracking of user metrics, data analytics, commission distribution, and sales reporting, ensuring easy and secure administrative oversight.
- **Implemented Secure Features:** Integrated advanced security protocols such as CSRF tokens, prepared statements,

and role-based access control to protect sensitive user data and ensure secure transactions.
- **Collaboration with Front-End Developers and Stakeholders:** Worked closely with front-end developers and business stakeholders to ensure MLM site and panel functionality aligned with user needs and business goals.

Internship (Accounting & Finance):
Klash Private limited Faisalabad   May 2021 - March 2022

Core Skills: Financial Management, Accounting Functions, Reporting & Compliance, Software Proficiency, Process Improvement, Analytical Skills
- Conducted financial analysis and prepared monthly, quarterly, and annual financial reports, improving reporting accuracy by 70%.
- Oversaw accounts payable/receivable processes, reducing outstanding payments by 30% through effective reconciliation.
- Managed budgets and forecasts, achieving 45% alignment between planned and actual expenditures.
- Implemented ERP system enhancements, streamlining accounting processes and reducing manual errors by 62%.
